# OUR TRIP TO GREECE

AN UNFORGETTABLE TRIP TO DISCOVER ANOTHER COUNTRY

Our trip begins in the city of Athens.  
In this incredible place we saw different landscapes  
and we could appreciate the ancient streets and how  
well they were preserved.  
The Acropolis, the Pantheon and the Acropolis  
Museum were some of the different places that  
amazed us.

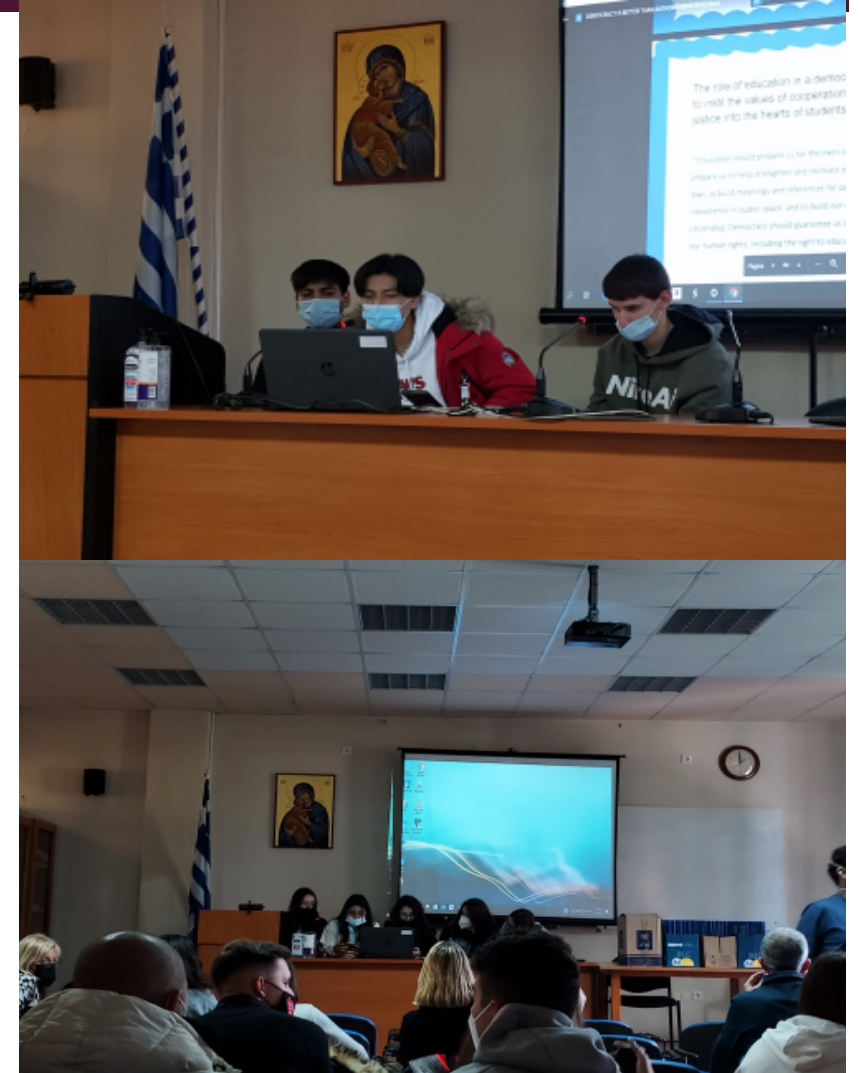

## ARRIVING IN KATERINI

The week starts and we arrive to Katerini hoping that we could see the same landscapes as in Athens or even better landscapes. In our arrival we met the students of the other countries and minutes later we went towards the highschool of Katerini. The school was crowded and the students there were staring at us for a few minutes. Later the principal gave us a tour around the highschool and we saw its facilities

## ARRIVING IN KATERINI

The highschool was huge and had a lot of places to discover. Our favourite place and the most visited was the meeting room where hours later we had to discuss about democracy and authoritarianism. Every group from different countries had to explain how the democracy affects their country. We also learned a lot of things from this meeting.

During the week we made a lot of friends and we could share our experience about this travel . Some people were charming and we had fun with them.

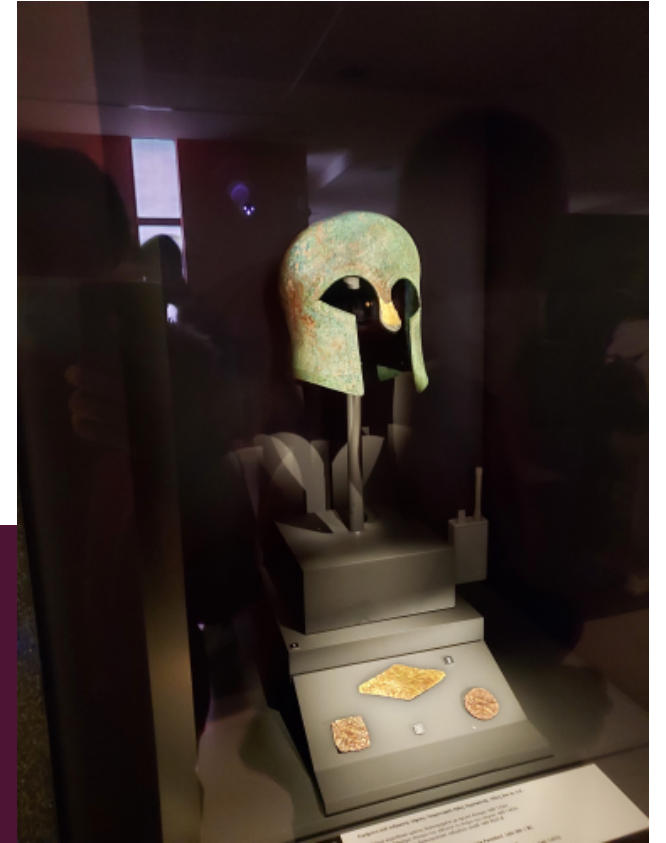

We also started to learn some sentences in Polish, Italian and Greek while we were teaching some Spanish expressions and sentences to them.

We have to talk about the food. The food was delicious and everything we tried was incredibly delicious.

The *Greek Pita*, *Musaka* and the *Drunk Chicken* were some of the incredible dishes that we had the opportunity to eat there.

We learned about the history of Greece and their development through the years.

We had different guides that were talking and explaining the different parts of museums and the relics of antiquity that have been best preserved.

## OUR TRIP TO KATERINI

We also visited different outdoor places. The walking towards the places was productive because we could talk with our new friends and it helped us to socialize. Every place was different from the previous one we visited and that gave variety to the trip.

## OUR TRIP TO KATERINI

We also saw different things that caught our attention. For example, we could see a lot of animals like cats and dogs walking quietly around the streets.

The best thing of that is the fact that they were not afraid of us and they even let us touch them without complaining.

## OUR TRIP TO KATERINI

In conclusion, we really enjoyed the experience and learned a lot.

We made friends that we had a hard time saying goodbye to.

We visited different places and were able to learn about the Greek culture.

It was an unforgettable experience that marked our hearts

# THANKS FOR YOUR ATTENTION!
